# About Us

EcoLend Limited was founded by a group of experienced investors from financial markets with offices in Hong Kong. Currently we are focusing on three main areas of investment are Online Trading, Investment Fund, Technology.

Our current business is divided into three categories: short-term, medium-term and long-term to ensure profitability for investors.

EcoLend Limited is in the process of developing and attracting a lot of attention from institutional investors as well as private investors around the world.

## The Cryptocurrencies Market

### WHAT IS CRYPTOCURRENCY?

- ✚ Cryptocurrency (electronic money) is a digital currency designed to act as a means of exchange. It uses encryption to secure and verify transactions as well as control the creation of new units of a particular cryptocurrency. Basically, cryptocurrency is the limiting item in a database that no one can change unless the specific conditions are met.

### FEATURES OF CRYPTOCURRENCY

- ✚ Irreversible
- ✚ Incognito
- ✚ Quick & global
- ✚ Security
- ✚ Not forced

### WHAT CAN YOU DO WITH CRYPTOCURRENCY?

- ✚ Purchase
- ✚ Invest
- ✚ Mining

# ERC20 Platform

## What is ERC20 Token?

- ERC-20 is a technical standard used for smart contracts on Ethereum Blockchain when it issues Token. ERC20 is an acronym for "Ethereum Request For Comment". This technology is an innovation proposed by the experts that has been officially accepted in the Ethereum Network and has a unique ID code of 20.

## How to secure ERC20 Token?

- **MyEtherWallet (MEW):** This is one of the most popular online wallets currently available, however, the security of this wallet is quite "banana" and there are many hacker attacks that take away the token. .
- **Metamask:** This is an add-on of Chrome browser, which you can download and install easily on Chrome.
- **ImToken:** This is the type of mobile wallet, currently ImToken has both versions for iOS and Android.
- **Mist and Parity:** These are two types of wallets installed directly on your computer.

# Business area of EcoLend

We always keep our customers' top priority so we divide our investment into three main categories: short, medium and long term with main business lines. Online Trading , Investment funds, technology.

- **Online Trading**

The current huge online trading market amounts to \$ 7 trillion. These are attractive markets to create a good source of income every day to ensure investors. We have cooperated with more than 200 traders in all markets such as Stocks, Indices, Forex, Crypto, Commodities, Bonds, ETFs ...

- **Investment funds**

Current investment funds are also our focus. We have extracted a portion of our capital to invest in top investment funds in the world. Our working partners are Man Group PLC, Viking Global Investors, BlackRock, Lone Pine Capital LLC.

- **Technology**

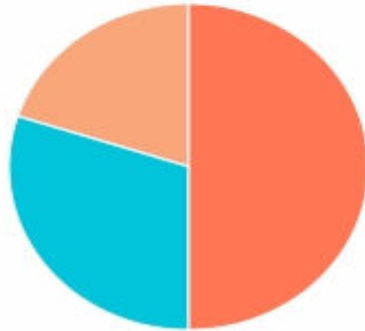

Technology market is catching up with a new wave of technology Blockchain. We are also the people who love technology Blockchain so we are very interested in developing and investing in this field. Our projects invest most of the potential ICO projects, as well as the practical applications of Blockchain. All are carefully selected by leading experts in the industry.

- **Cloud Mining**

The emerging mining money model is Cloud Mining, whereby a miner purchases a piece of hardware exploit that is stored and owned by a Cloud Mining service provider. The service provider performs the hardware configuration, maintains the uptime and chooses the most efficient and reliable pool. Mainly EcoLend to diversify the profit sources we formally participate in. Cloud-based mining program.

# Distribution of funds

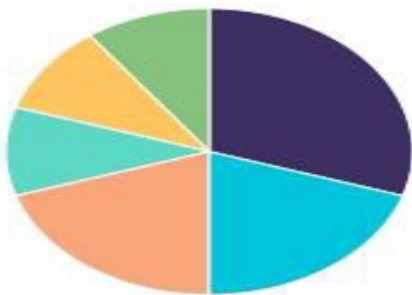

We have a specific plan for the capital of investors. Help us manage finances more effectively. We allocate as follows

- 50% Used for online trading to provide short-term cash flow, ensuring investor returns
- 30% Invested in investment funds
- 20% Invested in technology

- **Short-term** - Ensure daily profit for investors
- **Medium term** - Ensure stable profit
- **Long term** - Ensure the sustainable development of the business

# Profit distribution

- 30% Reinvestment
- 20% Return to investors
- 20% Reward
- 10% Business
- 10% Insurance fund
- 10% Coverage

# ECO Token Details

EcoLend will create the world's largest community analysis platform to give everyone a maximized opportunity for profit.

## What is a ECOLEND?

ECOLEND is the native platform token. It empowers merchants to take control over their marketplace by voting on platform improvement proposals.

## Token Utility

The ECO token is used to vote on platform proposals for the decentralized marketplace. Over time, this model hands all decision power to token owners.

|  |                |
|--|----------------|
| Token Name                                 | Symbol         |
| EcoLend                                    | ECO            |
| Total supply                               | Payment Method |
| 280,000,000 ECO                            | ETH            |
| Smart Contract:                            |                |
| 0x8Cdd0625a20c56Bf1A26f982828b522Beg7fb6B3 |                |

|       | Pre-Sale     | Bonus          | Crowdsale    | Team       | Locked     |
